

InterPore2025

Thursday, 22 May 2025

MS21: 4.2 (12:05 - 13:05)

time	[id] title	presenter
12:20	[76] Inertial effects on tortuosity	MATYKA, Maciej
12:35	[498] On the relation between the streamline- and volume-integrated tortuosity	STRZELCZYK, Dawid

MS21: 4.3 (14:45 - 15:45)

time	[id] title	presenter
14:45	[521] Permeation of semidilute polymer solutions through porous micromodels	Prof. MACMINN, Chris
15:00	[7] Motion by beating of porous biofilms with heterogeneous rheology: Simulation and clinical assessment of therapy for cystic fibrosis	Prof. PONCET, Philippe
15:15	[217] Determination of polymer retention rate at pore size in porous media	ZHANG, Lijuan
